I honestly don't think you love me anymore and that actually explains your behavior and irritability. It makes me sad but I am emotionally exhausted and I can't continue to fight you every month . I have reached my limit. I refuse to worry about my life being yanked from underneath me by a person closest to me on regular basis. I. You have been cold and distant and I am unable to change it. If you don't want to be with me anymore you should think about how you want to make the **transition**.
