On my way to India, but I'll be on the lookout for an input from Larry. We've checked and double-checked the build-up so I'm open to observations, but will reserve any embarrassment or apologies until an error is pointed out.

On the radar, I know we have our tech reps on the case and will get to the bottom of this as fast as possible. I do apologize for that poor reliability.

I've asked Larry to check the original contract.. and im sure you have overlooked the fact that many of the options you have added, were already included in the contract price of 12. 1. Iam sorry that your accounting department seems to put you in an awkward position of having to offer a contract with faulty numbers, You and I have had a good relation , and i feel embarassed for you that this continues to happen. On another note,,you should be aware that our radar on 750 has failed three times , replaced twice, and smoked internally only yesterday, someone need to look into this. I have been concerned about these radars since prior to official delivery.
