Jeffrey

I will discuss this with Rich Friday, Wifi systems installed on the G550.

Bottom line entry level speed choices:

- 1-SatCom direct \$97,652 annual
- 2-Arinc \$75,552 annual

I'd like to sign up with Arinc, we can upgrade speed at anytime for no additional cost. See attached for speeds,

Do you approve of Arinc?

Thx
Larry

Rich,

here is the info I gathered on Wifi, see attached for reference.,

I will explain over the phone to better understand what I'm trying to say below:

There are 2 Service Providers for KA Wifi,,,SATCom Direct, and Arinc, (who is owned by RockWell Collins).

I will be referring to 3 services and Something called CPDLC =(Controller Pilot Data Link Communication). which is New Generation of communication for Jets, mainly used for North Atlantic Crossings,, GIV does not have this, NOT mandatory until 2020. the G550 has CPDLC installed.

1-New WIFI is called **KA Band** JetConnectX,

2-**DATA Link**, is used for communication of the aircraft computer to Air Traffic controller for Clearances, Weather updates while flying and Down Loading Flight plans.

3-**Swift BroadBand**, is the original Wifi system that was installed on the G550,, its still installed and operational, so theoretically we have 2 WIFI systems installed now on the G550. KA Band and Swift.

WIFI is obviously Internet access world wide,

DATA Link uses VHF Radio when on the Ground, or it uses SWiftBroad WIFI system, also, to operate CPDLC communication, it must use Swift Broadband wifi to work,,, KA Band is not approved for CPDLC

use.

just to keep apples to apples, i'm basing everything on the Lowest cost plan, since upgrade to Faster Download speed is same for both SatCom Direct and Arinc.

SatCom Direct

JX25 ia \$6,600 per month, must pay 12 months in advance to obtain this discount.

DATA Link Service is \$8,096.00 per year,

Annual SatCom KA Band \$79,200.00 (must Pay full year in advance to obtain this discount)

Connection FEE	500.00
DATA Link annual	8,096.00

total SATcom direct annual **\$97,652.00**

Arinc RockWell Collins

Promo Plan JX25 service Plan \$6,296.00 per month, NO requirement to pay in advance.

DATA link GOLD Plan annual fee (\$14,500.00) No-cost,,,(DATA Link Gold is Free if we sign up KABand with ARINIC).

TOTAL ARINC Cost annual **\$75,552.00 (\$6,296.00 per month, includes 10% discount)**

Created with [Scanner Pro](#)
