Pete spoke with ALI. aircraft lighting International
Same company Eric uses for LED lights,

According to sales person, no potentiometers are required in the LED system light change,

From Pete;

Hi Larry,

I spoke to Shervin today-

There are no potentiometer or other components required.

Each of the 4 existing power supplies are replaced. Minor change in pinouts for plugs.

Bulbs are plug in, mount brackets (included) may have to be replaced due to difference in bulb diameter.

System is PMA Approved, no need for additional FAA documentation.

It would take 3 to 4 business days to assemble components after order is placed.

He estimates 2 to 3 days for the installation which could be done at TEB.

Would the arrival on the 8th leave us time before next trip?

If so, need to place order soon-

Regards,

Pete
