---

Dear Jeffrey, I hope this general zoning diagram makes more sense for you. Please let me know if it works and if you want us to continue developing the schematic design based on it.

We are definitely capable of handling this and any project. We just need to get to a point in which we can understand what you envision and if we can't, then we have to either spend more time together or stop and step away.

I really hope we can continue working with you and in order to do so, we also need to bring the outstanding invoice current.

I know you feel there is Zero progress but we have been working non-stop on different concepts following your directions and this is what this conceptual stage is for.

Please advise,

Ramon Alonso
