Jeffrey,
I understand your concern.
Please check out all the enclosed images..these are some of the many studies we did last year that showed the cascading stairs going down to the road. One of the sketches was done with you on the island back in October. You had indicated that the stairs were too formal and a little bit over the top. One would never walk down towards the road from the screening room..so we moved away from that idea.

We will be sending you shortly some ideas of the current pool concepts with the stair at the northwest corner of the pool as we had discussed yesterday.

But we can always design the cascading stairs back into the plans if you wish.
Let's talk Monday after you see all the sketches.

Thanks,
Tom
