I think you might suggest to bill that there are many types of psuedo- currencies.. Airline miles. special Drawing Rights.. Military offsets. Aid, .. Sarkozy , s focus, is the current world financial system, It is only a part of the overall movement of goods and services. THE most difficult part of my new currency is taxes. Howver, if we limit its participants to gov'ts ,and charities. they do not pay tax. *80% of the problems dissappear. We could start a CCU.. a charitable currency unit. Like special drawing right s for the poor. Keynes could not have envisioned electronic transfer of funds. His was a vision on when and how to interfere. Like all other sciences the technology has now changed the option.
