---

Jeffrey,

During our last fueling at St Thomas Jet center last week, I did not pay for fuel since Hancock was on Vacation in Asia (touring the countryside on the Orient Express Train \$\$) "Derek" the temporary manager was not comfortable in lowering the price unless he spoke to Hancock from \$5.93, and Hancock was out of cell phone reception, the fuel price was put on hold, after Hancock's return, we were charged \$5.93 which is not consistent with previous fuel price of \$4.82

Rich Kahn spoke to Susan Hancock, (since Michael was in Miami for fuel meeting), She told Rich, "since our negotiations are at a stale mate", and I was told personally our price is \$5.93 until further notice",

Rich tried to convince Susan to issue a credit and honor a price of \$4.82, during our negotiating . all to no avail.

Please advise on Rich's next move?

thank you,

Larry

I spoke to Dan Tomlinson from Caribbean petroleum this evening, we should have a fuel price from CP later tomorrow,

I will keep all updated,
