Hello Jeff,

I would like to thank you for your willingness to help people like me, it has really touched me since I first heard about you and all the work you do for others like me. I attached a copy of the original letter I sent to my Aunt [REDACTED] to send you. [REDACTED] said that you requested my mailing address, it is:

[REDACTED]
[REDACTED]

If you would prefer to send tuition to the school the address for [REDACTED] is:

[REDACTED]
[REDACTED]

The cost of tuition is about \$1,700 a semester, and there are two semesters a year. I have officially been excepted to [REDACTED]. The school goes on a [REDACTED]

[REDACTED], so I'm not sure when the tuition can be sent exactly. I applied to [REDACTED], as a summer student, I don't know if I have been excepted yet, but if I am, I plan on starting school a little early, in June 2011. I don't know the price of being a summer student at [REDACTED] yet.

I really want to thank you for all you are doing for me. It really is making all of the differences in my life at this point. It's hard for me to express how thankful I am. I would love to meet you if you have the time. I think you would really enjoy getting to hear my [REDACTED] play. [REDACTED]

[REDACTED]. You would always be welcome to come to our rehearsals Monday-Friday at my high school. I'm sure my director would love to meet you as well. He's has really been an inspirational person in my life, and I believe that meeting him would offer insight as to how I've gotten to where I am and where some of my inspiration to teach has come from.

Thank you again, I am so very thankful! If there is anything else you would like to know, or any more information that would be helpful I would love to answerer.

Sincerely,

[REDACTED]

Dear Jeff,

Hello again! As you heard, I am graduating this June from [REDACTED] High School. I have worked very hard all through school, but these last four years I have put my all into obtaining all the experience that my high school has to offer.

Along with being a member of [REDACTED] since my Sophomore year, I am also a [REDACTED] [REDACTED], and I am on the [REDACTED]. I love being in this leadership position, and being able to connect with the other [REDACTED] students especially the younger students that might be struggling to fit in at the high school.

Being with people and helping people has always been very important to me. Last year I completed a year long intern and study in education with the group [REDACTED]. My fifth grade teacher, [REDACTED], helped me get over a learning curve I had ran into. She noticed that I had a little bit of [REDACTED] and that with extra attention I could move on and be successful in the future. Her diligence inspired me to want to be like her someday. I went back to [REDACTED] fifth grade classroom last year to try and learn all I could from her. Unfortunately, this program doesn't exist in my school any longer, but I still keep in touch with her, and I learned more in her classroom, and by her example than I ever thought possible.

Keeping involved and being a leader helps me keep perspective of what's really important in our lives, and helps me to feel like I am making a little bit of a difference in the world through the people I come in contact with. I joined the [REDACTED]
