I think Couri can help you. You are in the PR penalty box using a hockey term. Do your penalty and make a plan for inner city kids for science and a million to a Chicago inner city school wouldn't hurt either. You can figure that out. Keep Ghislaine close you need her now. I would use Dr. Eva as the person who gives the checks to the schools in your name she is a Dr. a wife and a mother. Now for other stuff. Business came to a halt 5 days ago Oil is not coming down for 3 months at least I think. What do I do from here market wise. Thanks Jonathan
