I connected with Alexandra Wolfe. I sent her our statement and said we had expected she was going to fact check the story with us. She said she had written it yet, but shared what she had/ As she was talking I was taking notes on my computer. Following is what I have:

She said the story is based on the Prince Andrew stuff. It is more of a society story –how people are received after they having a sentence like Jeffrey's: events at his house, how the British are going crazy over Prince Andrew and the NY'ers don't care. She is not calling VR (though I pointed out to her the Gore allegations and that you had never met the Gores); She said she has the Scott Rothstein complaint (told her about his being convicted) – afterwards she said she is not sure what she is going to do with that, if anything.

She said scientists and friends who have a different opinion of Jeffrey than is being reflected in the press.

She told me (confidentially) that Peggy Siegel sent the Rothstein stuff. I used that opening to again educate her about Rothstein. Her response was that she had heard he seemed to trump up a lot of the charges against you because he told investors that you had agreed to settle for 200 million, but that was not the case; had investors giving him money and were putting pressure on him.

She then began to sort of fact check, though the article is not yet written. She will call back tomorrow.

Questions:

While he was in prison, was he helping feds with bear stearns hedge fund mangers

Was his business impacted and if so, how

Whether Les Wexner was still a client

No one seems to know what he does other than he manages money for people with over \$1billion net worth – want to comment on that?

What friends say, is he had checked women's ids when he worked for them, but they were fake – is that true? (This answer is being provided as a knowledgeable source: yes. In fact, if you check the police reports, you will see that the fourteen year old that is often referenced,, told the POLICE , when asked, that she said she was 18,, a senior in high school, and when asked why, she said that she was told that Mr Epstein would never let anyone in his home that was under 18.)

Jeffrey Epstein Science – new website? Copyright says 2008, has he just sort of refocused on that since leaving prison? How often did he used to work on that versus now?

Donald Trump, Mike Ovitz, still friendly with him? Other friends?

She wants to say with powerful friends who include...

She mentions dinner that he had for Prince Andrew – and who showed up: Woody Allen, Charlie Rose, Katie Couric , George Stephanopolis

At his townhouse on upper east side?

Still do charity work? Was trip with Clinton, Ehud Barak for charity – still doing charity work and friendly with those people? Yes, he is very much involved in philanthropic and charitable work now in healthcare, science and medicine – some examples include Mt. Sinai Hospital, Arizona State origin of life conference (give other examples)

Out of prison in June – 13 month sentence and subsequent year long house arrest for soliciting a minor for prostitution

57 or 58 years old?

Once managed \$15b, but not sure – still that amount or more? Should she says manages or once managed that amount?

Heard he is paying settlements to 20 underage girls who have come forward from some people and 40 from others? what is right number?

VR accusation that Maxwell procured her from Mar Lago, correct?

Homes he has: she is going to list

Have people saying he didn't really go out that much before; usually had people over or organize meetings with scientists in st thomas or little st james

Prince Andrew stayed with him at his house in Dec

Will talk about his website and some of the people on his website

Jimmy Cayne had just endorsed him on Jeffrey Epstein Science

He still has women working for him, but all in their mid-20s

Science conference supposed to happen in Feb – yes, it happened. Steven Hawkins was at the event some years ago on the Island. Plywood was put down on the beach for his wheelchair.
