lets look at variations of heights on the little terraces , to animate the space. i think the largest middle should be slightly higher than the rest. i don't think the ones closest to the bedroom should be at bedroom height , but six inches to 18 higher,,the ryhtm of up an down will be layered on the proportion view

we need to really tie in the road to library,, area along the cliff, and the terrace heights,, i think the rectangles. should move up and down a foot or so. so the bottom terrace should not all be at the same level but undulate. PLease use the topo, and accuately describe north

Jeffrey,

Here is a quick snap shot of our discussion.

Just to show you some of the ramifications.

I will take a closer look in the morning..

We are almost there!!

Good night...
