lets sketch in the pool,, ? the living room roof should be changed, the east side. of the living room and the road to the library, needs to be on the sketch, ..This is very helpful,, remember we should try, stucco, wood balconies, trying to eliminate some stairs, etc.

Sorry, it took us a little longer to get this out. First pass at the scheme with the main terrace at +44'. Has the living room at +42'-6" – same as the master bedroom. We are also working on a version that raises the main terrace and living room to +47', and has some low walls in front of the living room to divide up the space.
