From Reenstra:

Ok heard from the second client. He said he does not need to fly in the helicopter, has flown in 76's before, wants to see it. That being said I plan on showing it to him Wednesday morning. Couple of questions

Are you coming up to move it to AAG or shall I ask Sam to have Chris Patterson do that (I do not know his fee) Is the helicopter unlocked ? Any issue if I have a pilot or myself flip on the battery to light up the panel ?
