I have scanned quickly as am in middle of writing something. Good start. Apart from being lawyered throughout, it does not need more detail just coherence, order, the building of a case against a. the lawyers who have scammed you; b. the women who colluded with them; c. authorities who have been lazy and worse; d. the media who have exploited the story for their own needs. It does not need emotion or hyperbole. You are doing it as much to protect your friends as yourself. It should be brought to its best state by you – you will need to re-write and improve a good few times more to get it right – and then possibly worked on by a trusted/paid writer/journalist.

This is absolutely key to your future, more important than anything else you are doing. You have to get it right.

What is a john in this context ?
