1. we will estimate Warwick's latest plan for the terraces

2. small office--with the change of ac condensing unit on the flat roof over breezway the wall unit needs to go on the north wall up high to get the condensate into the gutter and not on any of the tile deck.

Q. roof unit sets tucked up aginst the metal connection on NORTH seaside or SOUTH courtyard ,North seems best to me.

the office windows and shutters have been ordered

3. lookouts and benches we haven't had people to put on them yet
