hi jeffrey,

..so i did this sample on the concrete building but i didnt finish the sample.. i have to do details...like top and bottom of the columns, that trim between roof and wall..

maybe the inside of the columns (the thickness of the wall) i should do it wider.. what do you think?

and what do think about the gray inside columns? if we do that red i think would be very bold.. being far on the water you would see first this buildings..

thank you,

ion
