Hi Larry,

I wanted to give you and Jeffrey an update on the G-IV/SP and G-V markets. Attached are current "Summaries of Available Aircraft" for the G-IV/SP and G-V markets.

Pricing in the G-IV/SP market is generally \$10.0 to \$17.0. Four aircraft are under contract as follows:

1336 – (Avpro listing) – closing Monday - \$13.5M

1346 - \$13.9M

1496 - \$12.5M

1501 - (G-400) - \$11.75M

I have inquired as to whether the owner of SN 1381 would bring the aircraft to Paris for Jeffrey to take a look at. It also may have a trip to New York next Tuesday the 29th. Maybe we would want Eric Roth or you and I to see it. Serial Number 1381 is still a decent candidate; however, I do not know what it can be bought for. I do not recommend paying more than \$12.5M and would obviously prefer less.

We will be bringing SN 1468 to the market shortly with 4000TT and fresh engines. Paint and interior is good. Asking price will be \$17.95M.

The G-V market remains relatively unchanged over the past thirty days with prices ranging from \$20.0 to \$27.0.

Three aircraft are under contract as follows:

555 - \$21.5M

636 - \$25.0M including fresh mid life inspections

681 - (Avpro listing) - \$26.5M

SN 671 Molinaro Koger, has been repossessed by G.E. Capital. It is an extremely well-equipped, beautiful aircraft. G.E. advises they will sell for \$27.5M. It could bring that price.

Otherwise, this market remains fairly firm with no great opportunities from a buyer's perspective.

The pictures of the Boeing came out well. We will be working on the video next week.

Happy to discuss with you or Jeffrey at any time.

Best Regards,
