Greetings Sir,

For your review and advisement of ceiling tiles for the STC office. Photos of the samples and a photo of what is existing in the office are attached:

Choice A: "Cashmere"

Choice B: "Sand Micro"

The "Cashmere" is very similar to the existing, but does not have the "stepped down" edge of the existing. The "Sand Micro" is a simple, cleaner look.

The vendor has both currently in stock.

Respectfully submitted, Daphne
