Subject: Crypto Hedge Funds

To: Jeffrey Epstein <jeevacation@gmail.com>

Hey Jeffrey,

Here is a cursory spreadsheet of some of the hedge funds that are trading in crypto currencies that I'm tracking. There are 3 in particular that I'm recommending - I have investment thesis's on them. I'm including one I can share publicly - Alphabit.

The other ones are a bit more private - but they have a minimum of \$5million as an initial buyin. They are killing it in terms of rewards - they have enough liquidity that they are doing crazy games with wash trades, and all the other games the HFT guys did for years.

I'm also including Pantera & Polymath - but I'm more skeptical about their performance numbers.

I'm pooling about \$30m from a bunch of billionaires I know who are all looking to get into crypto currencies and will be helping them establish positions in crypto. Let me know if this interests you or if I can help with introductions to the other funds I recommend.

-Austin
