Good day Mr. Epstein,

I apologize for the few attached emails that I sent earlier. This was done because I was unable to send multiple photos at once like before. However, there was not enough space to send a high volume of pictures when later discovered. I have come to a verdict that moving forward, I will have to delete previous photos from my google drive send multiple pictures again. The issue has been rectified.

Again, I am sorry for the inconvenience because I know how these pictures are of paramount importance to you.

With warm regards,
Cashkim.
