Good night boss

I have approach Ubiquiti network solutions (they are based in New York) to quote me their recommendation for equipment for the wifi grid for the island along with their for an installer or a possible consultant that would provide me the necessary training to handle the installation in house.

I choose them because it is their equipment that hector and Liston has used in getting service back online.

Regards
Jruan

Good day Boss

Submerged Wapa/Fiber:

- I have line up Liston Network crew to assist in handling the removal of the fiber cable from the existing manhole to the new manhole once the new manhole is ready.
- Hector of VIYA is inquiring from is superiors as to when they will start on repairing the VINGN cable that connects to our fiber.

Communications:

The telco side of VIYA will not be in operation on St. Thomas for at least another 4 to 6 months. I am looking in to a VOiP System (using the internet vs actual phone lines) that will integrate with the existing digital system to restore telephone service for LSJ .

Internet over all

-I am still waiting on the 3 vendors for quotes to replace LSJ WiFi grid.

-Areas that don't have internet due to fiber damage (ie Flagpole pool) will be set up with a wireless bridge to bring them back online.

Cecile will assist me in putting pressure on some of the vendors to get things moving in a forward direction.

Regards

Jruan
