I have attached photo's of tractor unit and tanker for your reference
I think it would be best to store tanker some where else other than engineering, especially during the dismantling of cement plant
Tom has not finished with final grade etc and will probably need crane in that area for batch plant
Can we just get it out of here for that phase?

Arran received an offer of 10,000 for cement tanker and tractor head
we were asking 10,000k for tanker, tractor head is toasted
please note tanker has been dropped twice on the barge
tanker will be off island in storage during your visit, we need tractor head for removal of last 40ft container which will be next week, then it can go

If we ever need in the future to have a 40ft container brought to the island, boysen will be used for delivery

The buyer is Mr Morehead of heavy Materials, he is also interested in other pieces of equipment
we should receive offers next week, on Ford Ranger, Bobcat, etc
he will also be forwarding contact info for potential buyer for batch plant

do we accept the offer for tanker and tractor head
