doing a word search on business does not rise to the level of I asked for specific advice for my co. . as you can see you did not. . that being said , once again , just as you did with flying , you need to learn the basics. the best way is to move and get a job . it is not aggressive, it is my best business guidance. it will be the same guidance given by my most successful of friends.. you might not like the answer , but it is the same.. though you write , i have full confidence in your business advice,, when i give it to you, you tell me im aggressive manipulative, and indifferent to your questions and needs..

In all my emails I've been talking about 'advice with business'. That was not a solicitation of generalized opinions about my life. I'm sorry if that wasn't clear. I actually hoped to talk to you about specific options, ideas and ways of accomplishing them. All I've been asking so far was - would you be willing to advise/ help/ guide me with that?'. You came back right away with an aggressive 'move and get a job' and kept repeating it, disregarding each mention of business guidance. I never got to talk to you about specific questions.

PS: yes I am in Europe, my phone is roaming. I haven't been using it

Consistent - this is your email from March 8: "*re ny im not suggesting you move from ny , , I heard you loud and clear but would not be unhappy if you decide to leave 66 th st.*"

Best - ...you are suggesting a 'job' instead of a career or **help with a business** that could actually offer some financial independence?

Advice - "move out and get a job" sounds more like a punishment. For what, I really don't know...

And you still have not asked me one question about what I actually wanted to do. I asked you for specific advice with my company. You have no information about it and you are throwing unrelated and unsolicited opinions at me. This is nothing but a lazy generalized statement and it's really not helpful.

Thanks
