Hi Jeffrey,

Please excuse my absence in the last 10 days. My daughter's godmother, age 38 and my dearest friend, passed away yesterday morning and I have been incubated in the hospital taking care of her.

I look forward to a time when life does not feel like a war zone.

1. Please see your updated forum with all of your concepts. Your forum is starting to get comments which I reply to on a regular basis. http://www.jeffreyepsteinforum.com/

2.I've been getting your concepts into tons of science blogs and other popular forums: ie. The Science http://www.thescienceforum.com/general-discussion/29769-what-does-music-tell-us-about-brain.html#post342850 You are already alot of viewers and comments.

3. **To make progress in your google search. I really would like your permission to contact** *The Daily Beast* or at least the journalist and ask them to remove their articles on the basis of libel.

4. I spoke to the CEO of Reputation Changer yesterday. See attached proposal. They have over $10mil in revenues. I would like to schedule a conference call for the two of you. His firm is ranked in first place by "TOP SEO's" and they have finally agreed to take you on.
