Good evening,

Jules completed quite a lot this afternoon, he still has more hammer work on the 5 Palms road, before changing out the attachment. Danny will work on the electrical issue near the gym, this will entail power to be turned off to the gym, beach office and 5 palms. Danny was hoping to do this first thing tomorrow around 7:30am, if all goes well this should take 2 to 3 hours. Please let me know if this is not convenient for you

Thanks

Warmest regards

Jules has been working on the gym road with the hammer he has managed to hit the main power supply to 5 Palms beach office, gym

The lines have not been damaged but power will need to be turned off to these areas to reinstall into the ground

Given that it is only a few inches in the ground, we would like to repair and reinstall it deeper

Would like to complete the hammer work for the gym road, hammer work at palms road road then remove hammer, attach bucket then complete both roads

Please note it takes a good 2 hours to remove and install pieces

Bottom line gym road will be mess at least until Sat PM

This would be the quickest and most efficient way to have both roads useable

Please advise
