---

Jeffrey,

Attached is the solar proposal from Pure Logic, as well as the Company Bio and references. We had asked the Company to cost out the proposal out into separate projects - they have proposed 3 stages.

The Company had also discussed the option of purchasing colored panels to match the existing roof colors or terrain. If this is an option you would be interested in they will price it out. Rough estimate was an additional \$.6 a KW.

If you would like us to bid out with an alternate solar company, please let us know.

Jeanne
