attached is correspondence regarding install of garbage disposal and faucet  
i questioned brice on 9-11 that hours seemed high to install even though it was a not to exceed price - no  
response  
he then approves on 9-25 saying they are installing thursday am  
i asked if you approved on 9-25 - no response  
please advise

Brice,

Do we have an approval on the garbage disposals?

If so I would like to get it scheduled soon if possible.

Thanks and hope all is well.

Brice,

This work must be pre approved by jee before it begins. Please obtain jeffrey approval before you schedule work to begin.  
After reviewing bid i feel that 8 hours to install a disposal (3x) and 4 hours to install a faucet (3x) is very aggressive billing of hours.

attached proposal to install 3 new waste disposals, 2 new kitchen faucets and sort out dishwasher drainage issues  
Existing waste disposals seals have gone and blades need replacement, the only units we have replaced have been bunk house and staff house, nothing to my knowledge in the main house  
The kitchen faucets, the mixers have gone on both, washer have been replaced several time, they are original to the house  
At the same there is a drainage issue with the dishwasher which will also be addressed  
planning to schedule this for Wednesday, unless you have any issues, pls advise

Brice,

Please see the attached estimate for the install of the garbage disposals and faucets in the kitchen area. This price is based on a T&M not to exceed.

Please let me know if you have any questions or concerns.

If you can let me know right away and I can get two men on site tomorrow.

Thank you again
