J.P. Morgan invites you to participate in a prospective investor conference call for

Silver Lake Partners IV, L.P.

The technology and tech-enabled sectors represent an $8 trillion market experiencing exceptional growth and continuous innovation. This sector is a significant economic contributor, making up 32% of S&P 500 market capitalization and 24% of S&P 500 revenues. Within the private equity space, this market is underpenetrated with the technology sector representing only 13% of private equity deal volume.

Silver Lake Partners ("SLP") was founded in 1999 and is a pioneer and market leader in technology and tech-enabled private equity investing. SLP has approximately $12 billion in assets under management and employs 70 investment and value creation professionals, and its senior leadership has an average of approximately 20 years experience.

Silver Lake's fourth fund, Silver Lake Partners IV, L.P. ("Fund IV"), will continue the Firm's strategy of investing in high growth technology and tech-enabled businesses. Fund IV is targeting $7.5 billion in commitments and expects to focus on companies with at least $500 million in enterprise value. SLP seeks to construct a diversified portfolio of investments that include companies with exceptional growth potential at compelling valuation levels and market-leading companies with value creation opportunities. Silver Lake believes that its deep understanding of technology companies and financial expertise enable it to tailor investment structures to meet the business needs of the target company and optimize risk-reward dynamics.
