I also want a boyfriend and since I never go out and spend all day at work I can't meet anyone.
I also stopped going to the gym because I don't have the money.

I'm already exhausted after a long day of work. I don't have the energy to do anything afterwards. The first thing I do when I get home is going to bed. I don't have a life anymore. If I work at nights as well without sleeping after a week I will end at the hospital.

If I wanted to go to school, I should have already done it last year or this year. It makes no sense to wait an extra year when everyone is already finished. Can you explain to me the sense of all this ?? Do you realize you are playing with my life ???
