Trivers_October_5_letter_to_Rutgers1.doc

dear Jeffrey

nice talking to you and thank you for being willing to advise me on this matter

attached are three documents

(1) RAB report of April 25, 2012

This is Rutgers report on their fraud investigation (key pp 9-11) sent to NSF as required (NSF supported the work); they promised to publish their report but then gave Brown a chance to "appeal" or answer and now almost 8 months later still refuse to publish it--i believe to protect Cronk and themselves--by contrast Harvard published its report on Marc Hauser right away, as did U of Rhode island in a comparable case, as well as others.

(2) R_Trivers_09_14_12.RESP.doc

this is Dean Falk's very hostile letter readmitting me to campus with annotations provided by me (note first page of doc is empty) but not sent to him; instead my lawyer sent a letter later based on it (below); note it is illegal to use earlier evidence that i was bi-polar against me (1996, 2000) if i am not manic now, nor have i been in 12 years (nor did i ever attack or threaten anyway even when crazy)

(3) Trivers Oct 12 letter to Monica Barrett.pdf

my lawyer's letter in response to their lawyer's letter; problem is their lawyer does not even respond at which my lawyer appears to fold her tent, i.e. does not respond herself--she threatens legal action but does nothing when granted neither a meeting with Barrett nor even the courtesy of a reply

to put it mildly i need a lawyer at least half-way between this pleasant woman and an organism like Dersh

i await your thoughts, with warmest best, as always

robert

[REDACTED]. we are just sending off a ms (supported by you) on running speed/endurance as a function of 2nd:4th digit ratio in Jamaica; we have another one in the works on self-deception and religiosity; nothing

earth-shattering, just building up science one stone at a time; i will
send you the papers
