Hi Rich,

Attached is the plan to fill in the wifi deadzones at 71st — I apologize for the “noisiness” of the images, Merwin only had mechanics floorplans for a couple of the floors.

All told, I expect to need 24 new eero Pros and 4 eero Beacons.

You could order these directly from eero.com, but you'll save ~\$500 by ordering from Best Buy (*Amazon is also an option, but they limit the number of units you can order at once, so you'd have to place several orders to get the same price as Best Buy*).

eero Pro WiFi System (Set of 3 eeros), 2nd Generation

7 @ \$450

eero - Home WiFi System (1 eero + 2 eero Beacons), 2nd Generation

1 @ \$320

eero Home WiFi System (1 eero + 1 eero Beacon), 2nd Generation

2 @ \$229

Installation will take a day and should be done when he's not in town.

Thank you,

James Ce

To correctly quote the WiFi upgrade at 71st, I should do a walkthrough and plot where all the problem areas are. Merwin will be available tomorrow, if that's cool?

Thank you,

James Ce
