Dear Ms. Klein,

The lead time for the generator is about 4-6 weeks. We estimate the permit processing may take 6-8 weeks. This puts us at a job completion time of 3 months at best and 5 months if we have complications. The permits and the generator order begin upon contract signing and deposit received so these two processes run at the same time. Please be aware that these are estimates and not guarantees as we are dealing with other entities not under our control.
Feel free to contact us if you have further questions.

Sincerely,

Magaly Hernandez
