---

I take back what I said about [REDACTED] and their willingness to change  
Not even 24 hours after our conversation that we agreed not to use Jack (last order was trash truck parts yesterday as [REDACTED] deemed emergency) he is changing his tone  
I really hope Roy and [REDACTED] work out as I am getting tired of their excuses, lies and changing of fact patterns..  
We all spend to much unproductive time as we do not trust him

Good Morning

Attached is the spec for the hose that Jack estimated and a estimated cost from Web  
the 2 main differences are the tough coat and nitrile tube lining  
the tough coat gives better protection especially in this environment  
the nitrile tube lining is more resistant to oils and acids, therefore lengthening life span

150 ft @ 26.18 = \$3927.00, thats a difference of \$445.50

I think that calculates to approx 11% profit

I have checked availability or shipping charges as of date

Is this an acceptable profit margin.

I have concerns losing Jack as a source for material, I understand your concerns but his knowledge base of our equipment and material requirements is something we should consider.

Lets discuss Tuesday

regards [REDACTED]
