Dear Jeffrey,

just back from Cuba!

It was a great conference and a great time of discussion and programs together. Again my personal gratitude for your enormous support! The conference would have not been certainly possible without you.

The scientific project you know has been long discussed in depth.

Please see a photo of the project group attached !

We thought a meeting with you in your next travel to Europe, in Paris or elsewhere, could be a perfect occasion to meet all together and define with you aims and modes of the project. Please let us know if and when you think it will be possible.

Many thanks again for your help, we look for further news from you.

Sincerely,

Giuseppe
