Date: Fri, 10 Nov 2017 15:26:33 +0000

attached is anna explanation of now 20 temporary workers (was 17-18 last week)
cost is 100 per day x 5 days = 500 per worker x 20 = 10,000 per week

appears she is getting snippy with response
first it was 6 today then remainder in 2 weeks
now it is 6 today and 6 more in 2 weeks leaving 8 temp workers..

note we have 20 employees and 10 contractors in addition to temp workers above...

please advise if her explanation is ok
thank you

Ok, Yes, but since Bossman's visit things have changed due to more work getting done faster.
-Landscapers are gone today
-Painters will go in 2 weeks. 80% completed
-Electrician will go after the MC is completed and GSJ is completed.
-Housekeepers will go after Tunnel & Cost-U-Less cleanup

Would you like me to let everyone go today?

Please advise,
Ann R..

We pay them weekly because almost every week we let workers go. When we let them go without pay they come to the office with very aggressive attitudes. Today I'm letting 6 people go and in 2 weeks 6 more will go

this method of paying real time is not smart as we are bound to make mistakes..

Greetings Rich,

Please discard Sharkiel Weekes' check. He was released already, and already paid in full.
