Good day boss,

I spoke Charles, a representative, of Choice Commination of the Virgin Islands on the 4/29. At this time they are unable to provide the 1:1 ratio 10mbps link over their internet 'backbone', which were the specs and mode of access that Greg suggested. I will continue to reach out to Greg for more advice in this area.

Cell Signal:

AT&T technicians were out on the island to get firsthand experience of the logistics of the island on 4/25. Among the discussion, it was mentioned that there is New MetroCell technology coming online in Puerto Rico starting June 1, 2013. Jeanne and I suggested to the technicians the possibility of LSJ being included in their 'beta testing' with Puerto Rico. We will update you if AT&T agrees to this venture.

The Secondary Internet:

BroadbandVi was installed 4/23 and is 'load balanced' with AT&T for LSJ's internet service.

Regards
JRuan

Good day JE,

With the help of Greg Wyler, Motorola 'point to point' radio solutions would be the best fit for Zorro Ranch. Motorola Solution Center requires some information in terms of line of sight, location, and altitude. I will forward the exact questions to Brice and Karen so Motorola can put together a Radio Solution with prices for us.

Regards,
JRuan
