Idea..im open to your s 1 you engage southern trust co. to counsel and guide your finance. estate structure, STC proprietary strategies cannot be used for any other entity person etc . ( no leakage ). The task is to restructure and guide . I will not give investment advice. The risk in this will be shared but greatly weighted to your favor. (benefit). 1 you will true up the payment for the current year to approximate 1percent of net assets. ( after all third party loans art, etc, intraco/family loans do not count ). approx, an additional 20 million . 2 you will contract for an intial period of three years at the same 1 percent of assets per year. 3 this is a small portion of what you would additionally owe if the structures are successful. at the end of the fourth year. 2017, you and i would review the benefits, and an additional amount minus money already paid, would be calculated at approx 50 percent of guranteed savings, 20 percent of deferrals. payable in equal instrallments over the years 17-20. These amounts would be collateraized , and payable in their entirety upon your death. and calculated in a good faith attempt to reflect those proportions.
