Good Morning Rich,

Attached Project Request & Approval for the Yurt Refurbishment

Pacific Yurt does not handle the shipping, we would need to confirm the price closer to the delivery date and then this would have to be paid COD

8 to 10 weeks to get on site, before arrival, Yurt needs to be emptied, wooden roof & walls deconstructed, stone base repaired, floor sanded, resurfaced and roof & walls reconstructed. All of this can be completed "in house" with minimal expense, but this will take quite a bit of time

Please advise if you require any further information

Warmest regards

--
