---

Jermaine

as requested attached info on the present Microwave System at the Ranch

Please note after reviewing my archived notes, there are several issues that will need to be clarified

1. Delivery of services to Sandia Crest vs D Mark on route 41
2. Federal regulations regarding tower on ranch and license link application
3. Licensing Fees

when the initial study was done, it became apparent at that time that an unlicensed link from ranch central was the most effective, economic and simpler approach.

If I can be of any further assistance please let me know

regards

**Brice Gordon**
