Hej Hej Jeffrey,

We have the best Summer in many years here in Sweden....that's when you totally forget what it is like when you visit here during the rest of the year....as when you were in Norway..!

The Scholarship and BBB could never have become this big and important without your continuous and steady support over all these years, rfor which we are always so thankful!!
There are now 150 Best & Brightest, many now quite successful in their own rights-and receiving lots of press as well. I am aware that we could make the BBB network a commercial talent pool, as a matter of fact, ours is the only not commercial network in Sweden, but somehow I have not wanted to do that and thanks to your generosity we manage to continue and grow more ambitious-like just having announced a new BBBChina Award! Meanwhile though, right now we are in serious red and I am hoping that perhaps my BBBNewYork girl Christina who flies here on Thursday, may bring a check from you to the school??She can be reached at [REDACTED]-she could actually also be a candidate for your assistant job, she is also a CPA..

Anyway, wonderful if this could work out, let me know if this is at all feasible and if it is, maybe Lesley could be helpful to get hold of her? If you want to talk to me directly, my personal cell here is +[REDACTED] and as you know we are 6 hours ahead of you...

Let me know what you think, you would love Stockholm in the Summer!

Fondly,

BE
