Afraid [REDACTED] ([REDACTED] former assistant) just started working at Sony in London. Onto the next.

I just spoke to her. I asked whether she felt up to the task and she wavered. She feels she is not ready and too young for the job. Fair enough. She hasn't yet had a real job and I think she might need more experience before she takes something on like that. Also she won't graduate until November. But I am organizing an internship for her at Coach here in January so she'll get plenty of training there. I'm also following another lead. An English girl in her 30s who was [REDACTED] assistant for 5 years or so. She is, by all accounts, perfect for the job. Though we are still trying to figure out whether she already has a new job now. Please stand by.
