dear Jeffrey

it gives me great pleasure to send you our paper on knee symmetry and sprinting ability in rural Jamaicans, just out now in PLoS ONE

it is i believe a genuine contribution to the biology of sprinting

as i mentioned to you i have now put together the backbone of a team to measure 100 elite sprinters, to be supplied by my friend Bruce James, head of the Jamaican Track and Field Association

i wanted to ask your counsel regarding raising the necessary funds (~\$80,000); i specifically do not wish you or Gordon Getty to contribute to this but instead Adidas, Nike and Puma, each of which sponsors one or more world-class Jamaican sprinters (Bolt, Blake, Weir, Fraser-Pryce, Powell et al)

i can try to approach them through their clients but wondered if you had any suggestion for reaching these organizations at a higher level; e.g. do you have contacts in any of these companies or, better put, how would you blind-contact them if you had to?

---

am back in Jersey for one week, mostly to have my right eye looked at, after retinal reattachment surgery in Jamaica, but next week i hope to be back in Jamaica, when publicity in the press will begin

hoping all is well with you; no phone yet for me but if you wish to talk, send a number

all best, as always

bob
