---

Jeffrey

the transmission and clutch on the 1984 Peter-built Dump Truck, failed while hauling fill dirt to Larry's. I instructed Steve via email to arrange for the truck to be towed to West Truck Services, Moriarty to confirm estimated repair costs and overall condition of truck.

Unfortunately that message was not relayed and they went ahead and ordered a rebuilt Transmission, cost \$4136.98, less taxes

Total cost of Transmission and Clutch repair is \$7712.72, see attached estimate

The overall condition of the truck is good, apart from the transmission and clutch.

We contacted Peter-built Trucks in ABQ, they were not interested in doing repair, due to age of truck.

Steve sends his sincere apologies.

How do you wish to proceed, repair?

**Brice Gordon**
