---

Hello Sir,

There's lots of emails going around — some with incorrect information — so I thought it'd be good to recap the status of each house.

NYC / 71st:

Receiver: Marantz AV7005 does NOT support 4K passthrough  
Projector: Epson LS10000 is 4K HDR compatible  
Cables: uncertain, assuming not 4K

Zorro:

Receiver: Mcintosh MX121AV does NOT support 4K passthrough  
Projector: Epson LS10000 is 4K HDR compatible  
Cables: uncertain, assuming 4K

LSJ:

Receiver: Mcintosh MX121AV does NOT support 4K passthrough  
Projector: Epson Pro L1505UNL — upscales to 4K, not actual 4K  
Cables: uncertain, assuming not 4K

Palm Beach:

Receiver: Marantz SR7009 is 4K compatible  
TV: Samsung UN75HU8550F is 4K compatible, may not support HDR  
Cables: uncertain, assuming 4K

Paris... TBD.

I'd suggest sending an Apple TV 4K down to Palm Beach to replace their existing Apple TV and seeing if it works as expected.

If it does, consider the Marantz SR7009 <http://us.marantz.com/us/Products/Pages/ProductDetails.aspx?CatId=AVReceivers&SubCatId=0&ProductId=SR7009> for other locations.

Thank you,

James Ce
