Greetings all, This is the quote for a new yamaha 150 for chris boat. We also have the option of the used yamaha 300 from a private party that they have at offshore. The boat and both engines are there already. Please advice on choice of motor and I can have it installed asap. If the 300 is chosen we will need a new shifter and gauge since its fly by wire and not shift cables like the 150.

Thankyou

Carlos
