this is helpful, this is ONE year ago and all the people, even after one more year of article after article, most in the room hated russians. hate. decided that the explanation might not be perfect but the conspiracy theorists. did not have a good case. like the expert whose only experience with planes was making models of them as a child and looking out the window as he flew on commercial flights. Obviously, I do not personally care one way or the other but I think it is important for you, to learn how to do real research, make good cases. present your views effectively and recognize bullshit from reality. otherwise, you will tend to believe people and not the facts.
