Jeffrey,

Good news regarding Helicopter hydraulic leak, just completed successful gear swing, hydraulic leak was a loose fitting underneath tail boom area. I will have a firm completion date by noon tomorrow, I don't think there is a chance they will have the helicopter finished by Saturday morning in order for me to make it to St. Thomas by the evening. I would estimate Helicopter completion Tuesday next week maybe earlier that is only my guess.

Items that are outstanding, I'm trying to locate to mean we'll apps have to be replaced due to corrosion, Bell does not allow for any pitting. Bell 430 Wheels are not in stock, chances are I will get a waiver from bell until wheels can be found in order to continue airworthiness.

Better update tomorrow afternoon thank you Larry
