He hasn't invited me to LA. I pretty much think he would if he came here. He always wants to take me back with him. But I won't go until he asks.

Serious about what... Guys or work ? Or both?

Even more so than guys, I would love to be doing something work wise that makes me feel needed and productive. For both of us.

Firstly... Where would you go if you took vacation. Somewhere beachy to relax ?

Also BP wants to come here for a large part of august. Should I still rather go in vacation.

(Aside from BP I have been enjoying being here for the summer and finally meeting new people and having fun.)

I am seeing my psychiatrist but can change or only see him for meds and go to someone else. I have never been to [REDACTED]. Can I phone up and ask him for a recommendation.
