you are whining , and still unable to accept your role . read your own emails promising not to do lie again, , and then another email promising the same thing, and then another. . not sure why you continue point to others that have kept their word as a comparison. to you , who refuses to look in the mirror . throw fits in the street. . scream yell, lie. cheat. and then try to blame others for the only result possible

How do you know I didn't work hard and tried my best since you never ever took any news from me in the past 2 years ?? At the opposite of Arina and [REDACTED] who are enjoying the sun in Palm beach doing nothing I've been struggling all year trying to survive.

getting food and water to people that have worked hard and have tried their best , take priority over someone who has ignored all advice. lied , stolen, abused trust. yes that is true

You pretend to care while in reality the truth is that you don't give a single shit. If you did you wouldn't leave me in this situation and struggle so much. If you cared you would help me achieve my dreams, take some news and take care of me. It's so easy to tell someone "I've warned you" without being close to this person. I've got no money on my card, can't buy food and maybe no house the next month since I cannot pay my rent anymore but I understand that reconstructing your islands from scratch is a much bigger priority for you.
